RF1904 SIDEWAYS LOUNGE CHAIR

As an extension to the RF1903 Sideways Sofa, the RF1904 Sideways Lounge Chair exhibits a soft design language and subtle details. This curvaceous chair continues to demonstrate designer Rikke Frost’s mindful, minimal approach to contemporary furniture by designing for modern needs and using long-lasting materials. The Sideways Lounge Chair exudes modern elegance, inviting a sense of retreat with its cocooning shape. First impressions suggest an organic and sculptural seat which embraces the sitter with a firm, curved support wrapping around the sides and back. Closer inspection reveals a chair that reserves space for quiet contemplation whilst feeling open to welcome conversation. Crafted from a considered trinity of classic materials, the chair displays a steam-bent backrest made from FSC™-certified oak or walnut and high-quality textile upholstery. Tightly strung paper cord detailing to the back of the chair gives it a lightness of form, making it beautiful to view from all angles. With a neat, modern aesthetic and high-quality materials, the RF1904 Sideways Lounge Chair is a versatile choice for both residential and public settings.
