The USM world

- 68 USM and sustainability
- 70 Product information
- 80 Colours & surfaces

Home is our personal retreat, the private space where we share special time with family and friends.

It is a reflection of our lifestyle, our attitudes and the things that mean the most to us. As our lives and tastes change, our home evolves with us – always in sync with our current needs.

USM Modular Furniture is designed to accompany us through different phases of life. It adjusts to new demands, ready to take up different functions in our home.

USM Haller is the epitome of timeless design: almost 60 years ago, Fritz Haller and Paul Schärer created a completely new aesthetic – a furniture system inspired by architecture.

Two visionaries, one idea

After completing his engineer studies, Paul Schärer Jr. joined the family business in 1961. The engineer had big ideas: he wanted to build a modern, industrial factory. He partnered with Fritz Haller, a respected architect of Solothurn school.

Born from architecture

Haller developed a flexible construction system with various steel modules. This inspired Paul Schärer Jr., who had a bigger vision: interior design that complements architecture. Together, they developed a modular piece of furniture that was predestined for further development.

Furniture with a system

The centrepiece of the system is a chrome-plated ball with six threaded holes. It connects the chrome-plated steel tubes in any combination. Finally, add sheet steel panels, which are powder-coated in various colours. Everything was intended for the company's own offices.

From prototype to USM Haller

When photos of the forward-thinking furniture system with its innovative aesthetics appeared in architecture journals, it was hailed an international sensation. A commission came from the Rothschild bank in Paris consisting of 600 workstations – the company's first major project. Series production began in 1969.

Less is more

With endless possibilities, the USM Haller system can be configured at will and adjusted to changing requirements, in all directions. Its strikingly fascinating minimalism is eye-catching and inspiring for everyone who values design, quality and functionality.

Modern art

An icon of modern design, USM Haller has been on display at the MoMA in New York since 2001 and recognised as a 'work of applied art' since 1988. USM Haller continues to evolve, while remaining true to itself by retaining original characteristics and invites users to challenge their own creativity.

From Münsingen out into the world

Alexander Schärer has headed up this fourth-generation family business since 2000. Production is still carried out at the headquarters in Münsingen. USM employs 450 people and currently has subsidiaries in the USA, France, Germany, UK, Japan and China. USM products are distributed by dealers in over 40 countries. Sustainability has always been a top priority. In 2008, USM was awarded Greenguard environmental certification and received the Cradle-to-Cradle® environmental label in 2018. The vision is to become a fully circular company by 2030. → S. 68

- 1 New factory (1963) and office pavilion (1965) in Münsingen, designed by Fritz Haller.
- 2 In 1965, USM Haller was developed to furnish personal use workspaces within visionary architecture.
- 3 Schärer family home (1969), designed by Fritz Haller, furnished with USM Haller.
- 4 The key to space. Balls, tubes, panels: what began 60 years ago continues to inspire today.

Dining

Sharing time together with family and friends is priceless.

It is often little things that make life richer. Spending time with loved ones, eating, talking, laughing together. All it takes is a large table to gather around. Pure and simple in design, the USM Haller Table allows you to dine in style.

Rethink, redesign, revalue sums up the sustainable benefit of our products.

What and how much do you really need? What purposes should a piece of furniture serve? Experienced consultants and virtual planning tools enable us to support you to create a bespoke and conscious purchase. So that you get exactly what you really need, tailored to your current requirements. But don't worry, once furniture has been designed, it can always be rethought and adapted to new circumstances.

Each piece is unique, planned and assembled especially for you. Our furniture is designed to be forever reconfigured. Thanks to the high-quality finish and clever design, all components can be change and extended at any time without any problems. This leads to limitless creative freedom, more individuality in design and almost infinite cycles of use.

Our vision – becoming a fully circular business
We want to extend circularity principles beyond our products. That means adopting this philosophy throughout our company – from our product development to our manufacturing, and new business models, from our communications to our supply chain, operations and the expertise of our people.

Thanks to the high quality, colours that never fade and a 100% modular system, decades-old USM furniture can be seamlessly combined and upgraded with new components. We believe a product that adapts to your style, your life, your changing needs is relevant and loved.

USM furniture is a valuable companion for life, across generations.

Our product lines USM Haller and USM Kitos M, accounting for more than 92% of our revenue, carry the Cradle-to-Cradle® certification. It is the leading multi-attribute standard used globally across industries for designing and making products that enable a healthy, fair and sustainable future according to the world's most advanced science-based measures.

All our four main product lines carry the UL Green-guard Certification for low chemical emission. Having undergone rigorous scientific testing to meet stringent emissions requirements, this certification approves that our products contribute to a healthier indoor air quality.

DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

We have committed to set the following emission reductions in line with the latest climate science:

- Reduction of absolute direct and indirect greenhouse gas emissions (scope 1 and 2) by 42% by 2030 from a 2021 base year.
- Reduction of other absolute indirect greenhouse gas emissions (scope 3) by 25% within the same timeframe.

(Our target boundary includes land-related emissions and removals from bioenergy feedstocks.)

The Science Based Targets initiative (SBTi) has approved USM's above near-term science-based emissions reduction targets. The highly respected climate action organisation, partnering with renowned organisations including the United Nations Global Compact and the World Wide Fund of Nature (WWF), enables companies worldwide to play their part in combating the climate crisis.

USM Haller E

A modular structure of your design, either completely or partially equipped with e-Balls and e-Tubes, is connected to a source of electricity. The structure itself conducts the low voltage electricity to the desired location using the e-Balls, e-Connectors and e-Tubes to form a circuit. USB chargers or light sources can be snapped into place in pre-cut recesses. The power supply is drawn from any point near the ground. The power supply cable is attached to an e-Ball, and the power adapter is subsequently tucked underneath the furniture until only the operating switch remains visible. From this point the power supply requires no further cables but rather is integrated into the structure of the furniture.

Application options

- 1 **Glass panel**
Glass elements can be illuminated throughout.
- 2 **Without metal paneling**
Compartments without metal paneling can be completely illuminated.
- 3 **With metal paneling**
Compartments with metal paneling can be illuminated from the front.
- 4 **Compartment with an extension shelf**
The entire compartment with an extension shelf can be illuminated.
- 5 **Drop-down and extension door**
Via the "Light When Compartment Is Open" function, the light automatically turns on when the door is opened.
- 6 **Angled shelf**
The presentation space is illuminated from the front.
- 7 **Floor lighting**
With floor lighting, the light shines at a 25-degree angle under the furniture.
- 8 **Ambient lighting**
The light is directed vertically towards the back, illuminating the surroundings with a warm glow.
- 9 **e-USB charger**
It can be integrated in the same places as the e-Lights.

e-Elements

- 1 **e-Lights**
Dimmable, available in
– Warm white 2700 Kelvin
– Cold white 5700 Kelvin
Both with or without the "light at compartment opening" function.
- 2 **e-USB charger**
Provides a voltage of 5 volts to the connected device. (Capacity: 6.5 W)
- 3 **e-Dummy**
Sleek, black e-Dummy element, closes recesses that are unutilised. Can be changed for additional e-Lights or e-USB charger later.
- 4 **e-Tube (power outlet)**
Tubes with recesses for e-Lights, e-USB chargers or e-Dummy elements that can be easily snapped into place or replaced.

L 350, 1 recess
L 500, 2 recesses
L 750, 3 recesses
- 5 **e-Tube (conductive)**
The conductive e-Tube serves to conduct the electricity if no inserts are desired in this location. It is available in lengths of 750, 500, 395, 350, 250 and 175 mm.
- 6 **e-Ball, e-Connector**
To enable the flow of electricity, the ball and connector were refined. The exterior dimensions remain unchanged. The distinguishing feature of the ball is the black insulation ring.
- 7 **e-Power supply**
Includes dimmer at the operating switch. Transforms the power supply voltage to 24 volts. (Capacity: 60 W)

CE

All measurements in mm.

Accessories for all USM Haller desks

- 1 **Grommet hatch for network access**
Hatch for a single power outlet, flushmounted in tabletop. This unit can be mounted in two different positions on the tabletop.
- 2 **Cable management**
For the Advanced table, a cable tray integrated under the tabletop offers storage room and attachment options for all cables and technical components. For the USM Haller Plus, a cable wire basket can be attached.
- 3 **CPU holder**
Computers in various sizes can be mounted using a simple holding device under the table.
- 4 **Link chain**
Holds and directs cables to the power source. Flexible and adjustable to different lengths.
- 5 **Flat screen support arm**
Screens are mounted onto the support arm (VESA standard). Swivel-type with a spherical joint for the screen. Mounting at different heights is possible for screens weighing up to 12 kg.
- 6 **Flat screen pivot arm**
Screens are screwed to the height adjustable pivot arm using a mounting plate (VESA standard). Continuous height adjustment for screens weighing up to 12 kg.
- 7 **Front and side panel**
Can be attached under the table to the long side or laterally. For tables with lengths: 2000, 1750, 1500, 1250 and depths: 1000, 750.
- 8 **Pivoting pen holder**
Provides room for writing instruments and can be discreetly stowed under the tabletop.
- 9 **USM Privacy Panels**
Fitted on the long side of the table to provide individualisation and privacy. H: 350 or H: 700. For tables with lengths: 3000, 2000, 1750, 1500.
- 10 **Handle**
With slip clutch for synchronous height-adjustment (optional).

Accessories for USM Haller Plus / Advanced desk

- 11 **Flat screen support bar**
The support bar is inserted into the adaptation points. Up to two screens (max. 2 x 12 kg) can be attached using a mounting plate (VESA standard). Screens can be mounted at different heights; screens can be adjusted with ball joints. Continuously height-adjustable for screens weighing up to 12 kg.
 - 12 **USB adapter**
The adapter is suitable for USB 2.0 and 3.0 ports. It can easily be inserted into the adaptation point. Usable as power supply or for data transfer.
 - 13 **Lamp peg**
An optional lamp peg for easy attachment of selected table lamps. Electrification is possible through the adaptation point.
- Options
- 11a **Flat screen support bar fix**
 - 11b **Flat screen support bar adjustable**
Move forwards or backwards two notches at a time to adjust the viewing distance.

All measurements in mm.

USM Kitos M and E desk

Each desk of the USM Kitos M and E family offers integrated smart solutions for electrification, excluding free-standing.

Why USM Kitos M?

The "M" in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 second with zero energy consumption. This system is more than 10 times faster than the electronic equivalent and has an extremely long operating life.

Why USM Kitos E?

Maximum functionality and captivating design – USM Kitos E unites all requirements in one modern workplace: continuous height adjustability and maximum stability. A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.

E1

H: 740
With or without middle traverse

E2 with 1 motor

H: 700–1200
Adjustment time approx. 30 sec.
With middle traverse

E3 with 2 motors

H: 650–1300
Adjustment time approx. 20 sec.
With middle traverse

L: 2250 / D: 1000
Available with E1, E2 or E3 columns

Side table

USM Kitos E Free-standing

H: 740 or 700 – 1110
Square
L: 750 and 900
Round
Ø: 900 and 1100

The table can also be provided with an asymmetrical version of the middle traverse, for extra legroom. (This is not possible with the USM Kitos E / M Meeting.)

* Available with or without middle traverse.

** Available in a GS-Mark tested version with 3 mm table edge radius and the asymmetrical middle traverse.

All measurements in mm.

Accessories for all USM Kitos M and E desks

- Grommet hatch for network access**
Hatch for a single power outlet, flush-mounted in table-top. This unit can be mounted in two different positions on the tabletop.

- CPU holder**
The CPU holder allows computers of various sizes to be mounted either under the tabletop facing outwards or on the middle traverse facing outwards or inwards as desired.

- Link chain**
Holds and directs cables to the power source. Flexible and adjustable to various lengths.

- USM Privacy Panels**
Fitted on the long side of the table to provide individualisation and privacy.
H: 350 or 700.
For tables with lengths: 2500, 2250, 1800, 1750, 1600.

Accessories for all USM Kitos M and E desks, except USM Kitos M Meeting / E Meeting

- Flat screen pivot arm**
Screens are screwed to the height adjustable pivot arm using a mounting plate (VESA standard). Available for USM Kitos E and M tables: the pivot arm is mounted onto the tabletop using the universal support. Available for USM Kitos M and E Plus: The pivot arm can be inserted into one of the adaptation points with a tube set. Continuous height adjustment for screens weighing up to 12 kg.

- Front panel**
Can be attached under the table to the long side or laterally. For tables with lengths: 1800, 1750, 1600.
- Material tray**
Provides room for writing instruments and can be discreetly stowed under the tabletop.

Accessories for USM Kitos M Plus / E Plus

- Flat screen support arm**
Screens are mounted onto the support arm (VESA standard) which can be connected directly to one of the adaptation points. Swivel-type with a spherical joint for the screen. Mounting at different heights is possible for screens weighing up to 12 kg.
- Flat screen support bar**
The bracket is inserted into the adaptation points. Up to two screens (max. 2 x 12 kg) can be attached using a mounting plate (VESA standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

- Options:
- Flat screen support bar fix**
 - Flat screen support bar adjustable**
Move forwards or backwards two notches at a time to adjust the viewing distance.
 - USB adapter**
The adapter is suitable for USB 2.0 and 3.0 ports. It can easily be inserted into the adaptation point. Usable as power supply or for data transfer.
 - Lamp peg**
An optional lamp peg for easy attachment of selected table lamps. Electrification is possible through the adaptation point.

All measurements in mm.

Accessories

1

2

1 Metal magnetic bookend
Available in light grey and graphite black.

2 Pivoting pen holder
Provides room for writing instruments and can be discreetly stowed under the tabletop.

3 USM Inos internal organisation
Plastic inserts in metal trays are ideal for storing small bits and pieces, whether in the home office or in the house.

4 USM Inos drawer set
Thanks to its dimensions it fits into any piece of USM furniture. The displayed set with 5 closed drawers is avail-

able in all **15 USM colours**. The drawer sets with 5 open, 10 open or 10 closed drawers are available in graphite black and pure white.

5 USM Inos Box
The new USM Inos Boxes organise, store and protect both your treasures and everyday bits and pieces. Several boxes can be stacked on top of each other with the help of trays, which can also be used as covers or serving trays, or to hold assorted small items around the home. These soft storage boxes made of nonwoven polyester are available in four different sizes and in light grey and anthracite grey.

6 World of plants for USM Haller
Lively evergreen landscapes can now be easily integrated into the structure of USM Haller.
